SOVIET MINING SCIENCE

Numbers 1-6, 1970

(A translation of Fiziko-Tekhnicheskie Problemy Razrabotki Poleznykh Iskopaemykh)

Number 1 January-February, 1970

	Engl.	Russ.
ROCK MECHANICS AND ROCK PRESSURE		
Preliminary Degassing of Burst-Prone Coal Seams by Means of Large-Diameter Boreholes — V. V. Khodot, V. G. Krupenya, and G. G. Stepchenkova	1	3
Caving of a Cantilevered Roof — N. S. Khapilova	9	13
Analysis of the State of Stress of a Bolted Layer at the Periphery of a Vertical Working — G. I. Kravchenko	15	18
The Energy Approach to Calculations on Bolt Supports — I. A. Yurchenko	22	27
Use of the Photoelasticity Method to Investigate the Stress Distribution at the End of a Load-Relief Borehole — E. P. Chistyakov, I. D. Rivkin, and N. Ya. Khalaidovskii	27	33
On the Transition from Stresses at the End of a Borehole to the Stresses in the Solid Rock — L. S. Molodtsova and E. A. Mel'nikov	32	38
ROCK BREAKING		
Deformation Characteristics and Fracture Mechanics of Rock during Tension Tests by the Crushing Method — L. S. Burshtein	36	43
The Grain-Size Composition of the Fragments Formed from Regularly-Shaped Specimens in Compression Tests — L. M. Radchenko and V. I. Mikhailov	41	49
Calculating Optimum Drilling Conditions for Deep Boreholes — R. M. Éigeles, R. V. Strekalova, and E. I. Korol'ko	46	55
Mathematical Model of the Process of Pulverization in a Drum-Type Ball Mill, and Analysis of Static Laws for Regulating the Pulverization Process — Z. V. Uteush and A. A. Lukashev	50	60
UNDERGROUND MINING		
Aftereffects of Breakdown in the Elements of the Engineering System of a Mining Operation — A. F. Pavlov	55	67
A Method of Calculating the Fragment-Size Composition of Blasted Rock from the Given Oversize Fragment Dimension — G. N. Sirotyuk	59	72
Improvement of Grenade Throwers for Breaking up Hanging Loads on Ramps and Ore Chutes — A. V. Sofronov, A. V. Abramov, Yu. K. Nizovoi, and Yu. G. Shchukin	65	79
MINE AERODYNAMICS		
The Gas Pressure Distribution in Coal Seams Outcropping at the Surface and Enclosed within Gas-Impermeable Rocks — S. N. Osipov	68	84
Variation in the Thermodynamic Parameters of Conditioned Air in Mind Workings — G. V. Duganov, V. I. Muraveinik, P. N. Strizhka, and A. K. Lubyanaya	77	93
Basic Criteria for Coat-Effectiveness Comparisons between Systems of Centralized Compressed-Air Supply — N. M. Barannikov and V. A. Kotlyarchuk	81	98
Use of a Computer to Optimize Quarry Ventilation with Respect to Energy Consumption — A. A. Vershinin, S. S. Filatov, V. F. Egolaeva, and N. Z. Khramtsova	85	102

BRIEF COMMUNICATIONS
Estimating the Uniformity of Strength Characteristics Found in Tests on Specimens Prepared from Core Samples – I. I. Protopopov 91 110
Improving the Room-and-Pillar System in Partly-Frozen Horizons of Noril'sk Mines – V. N. Skuba and L. N. Shcherbin 94 113
A High-Frequency Electrothermomechanical Method of Breaking Frozen Rocks – L. B. Nekrasov 97 116
Anisotropy in the Electrical Conductivity of Coal – F. Z. Krasnovskii 100 118
Use of Electrical Parameters to Estimate the Degree of Fragmentation of Solid Rock by Blasting – V. G. Artemov, V. G. Zil'bershmidt, P. A. Lykhin, and A. B. Pravin 103 121
The Physics of Rock Bursts in Deep Horizons – É. O. Mindeli, N. F. Kusov, and I. I. Sharipdzhanov 105 123
The Geometry of the Disintegration Zone in Cutting of Soil by a Simple Blade – V. Yu. Chudnovskii 108 125
The Effectiveness of Hydroblasting in Dry Soils – M. F. Drukovanyi, V. M. Komir, V. A. Glyavin, and F. B. Cherkasskii 112 129
Determining the Working Zone of an Open Pit by Making a Mathematical Model of the Conditions of Mining Operations – E. I. Vasil'ev and M. I. Muratov 116 132
The Strengths of Coals under Bulk Compression – Ya. G. Shliomovichus and G. G. Sennikov 120 136
The Influence of the Reflecting Powers of Rocks on the Ranges of Optical Instruments – G. A. Shekhovtsov and B. A. Shekhovtsov 122 137
A Hydraulic Model of Gas Filtration in Boreholes Drilled to the Rise or Dip of a Coal Seam – S. N. Nedviga and R. N. Krigman 124 139

Number 2 March-April, 1970

Lenin and Science 129 3

ROCK MECHANICS AND ROCK PRESSURE
Experimental Determination of the State of Stress of the Solid Rocks Around Development Workings in Thick Seams – G. I. Gritsko and V. S. Akimov 132 7
Use of NMR to Study the Hydrodynamic Properties of Rocks – A. D. Alekseev, A. G. Brekhunets, V. I. Zhuravlev, V. V. Mank, and L. I. Yarovaya 136 11
Axially Symmetric Visco-Elastic Contact Problem for a Half-Space – V. K. Vostrov 139 15
Calculation of the Stress in Overworked Rock Masses from the Measured Deformation of Coal Seams during Overworking – I. P. Aman, I. I. Fiks, and P. V. Egorov 149 26
How the State of Stress and Fissuring of a Rock Mass Affects the Speed of Propagation of Elastic Waves – V. I. Panin and I. A. Turchaninov 154 32
Anisotropy and Rheological Properties of Kuzbass Coals – G. F. Bobrov 159 38

MECHANIZATION AND AUTOMATION OF MINING OPERATIONS
Pneumatic Boring Tools in Constructing Engineering and Mining – B. V. Sudnishnikov, A. D. Kostylev, and K. K. Tupitsyn 165 44
Design of Powerful Percussive Electromagnetic Machines – N. P. Ryashentsev, A. T. Malov, G. G. Ugarov, and A. V. Nosovets 169 49
Reliability of the Main Fan Units in Automatically Controlled Pit Ventilation Systems – N. N. Petrov and P. T. Ponomarev 175 56
Calculating Optimum Parameters for Pit Locomotive Receivers – Ya. M. Kiselev, Yu. V. Yamnikov, and V. I. Denisov 180 62
Relation between Forward Thrust on a Perforator and its Characteristics, the Bit Shape, and the Rock-Breaking Process – É. G. Chernilov 185 67

PHYSICAL AND CHEMICAL PRINCIPLES OF BENEFICATION

Magnetohydrodynamic Separation of Minerals—A. M. Nebrenchin, E. V. Gulyaikhin, and P. V. Komarovskikh 190 73

How the Duration of Magnetic Treatment Affects the Deposition Rate of Magnetized Magnetite Pulp—V. I. Karmazin and V. P. Nikolaenko 195 79

Aggregation of Particles in a Turbulent Submerged Jet—Yu. M. Filippov and G. R. Bochkarev 201 86

Selective Flotation of Phosphate-Carbonate Ores—N. A. Aleinikov and N. V. Afanas'eva 206 91

Flotation Efficiency of Different Iron Ore Size Classes—P. I. Pankratov and L. P. Skorodumova 210 95

BRIEF COMMUNICATIONS

Equation of State and Isentropic Compressibility of Marble—N. F. Kusov and I. I. Sharipdzhanov 214 99

Flexural Oscillations of Metal Roof Bolts under Various Tensions—B. I. Strygin 218 102

Experimental Investigation of the Stresses in Banks of Triangular and Trapezoidal Cross Section—R. E. Podval'nyi 223 106

Inductive Transducers for Remote Measurement of Rock Deformation in Pits with Gas and Dust Hazard—F. F. Gaman and G. E. Posokhov 228 110

Digging Unit of a Rotor Excavator—D. I. Fedorov and O. N. Mashkovich 230 112

Concerning a Rational Scheme of Application of Percussive Loads in Drilling—N. G. Zukablukovskii and G. N. Pokrovskii 233 114

Pneumatic Percussive Mechanism with Improved Operating Cycle—N. A. Klushin, D. G. Suvorov, P. A. Maslakov, É. P. Varnello, and É. A. Abramenkov 236 117

BOOK REVIEW

G. N. Kuznetsov, M. N. Bud'ko, Yu. N. Vasil'ev, M. F. Shklyarskii, and G. G. Yurevich—Models of Rock Pressure Phenomena—Reviewed by V. A. Shalaurov 239 119

Number 3 May-June, 1970

ROCK MECHANICS AND ROCK PRESSURE

Experimental-Analytical Method of Determining Deformations and Displacements in Solid Rock—G. I. Gritsko, B. V. Vlasenko, and V. E. Mirenkov 241 3

Calculating Rock Displacement Using the Mechanics for a Continuous Medium —N. K. Zvonarev 245 7

Stress-Deformation State of a Viscoelastic Tube with Work-Hardening of the Material —V. M. Zhigalkin 251 13

State of Stress of a Transversely Isotropic Seam during Mineral Extraction—V. A. Chernykh 259 22

Stresses and Deformations in Heavy Half-Spaces Weakened by Prismatic Cavities of Various Shapes—V. K. Tsvetkov 266 29

Changes in the State of Stress and Gas Filtration Properties of a Burst-Prone Seam in Relation to the Rate of Advance of the Face—E. S. Rozantsev and N. P. Mironov 272 35

Mechanism of Interaction in the Rheological System Composed of a Mechanized Hydraulic Face Support and the Surrounding Rocks—N. I. Yakovlev 276 40

ROCK BREAKING

Effect of the Geometry and Fracturing of Rock Specimens on Their Strength—A. D. Alekseev, V. I. Zhuravlev, L. I. Yarovaya, and V. S. Molchanenko 281 47

Coal Cutting by a Ring-Type Jet Head—Yu. A. Gol'din, P. P. Mikhalyuk, and V. S. Frolov 286 52

Engl./Russ.

Calculating the Efficiencies of Industrial Explosives by Means of an Energy Criterion —L. V. Dubnov and I. T. Kolesnichenko 291 58
Relation between the Laboratory Characteristics of Explosives and Their Efficiencies —A. E. Azarkovich 297 64
The Efficiencies of Aluminum-Containing Water-Impregnated Explosives —B. Ya. Svetlov, R. N. Solntseva, and A. G. Pavlov 301 69

NEW METHODS AND EQUIPMENT
Signal Transmission in Conductorless Mine Communication Systems—M. M. Savkin, I. F. Ogorodneichuk, and V. I. Yatsyshin 308 78
Ultrasonic Location of Rough Surfaces during Mining Operations—V. S. Yamshchikov and V. I. Ivanov 315 85
How the Reflectance of a Rock Depends on Direction—G. A. Shekhovtsov and B. A. Shekhovtsov 319 90

BRIEF COMMUNICATIONS
Determination of the Caving Interval of a Sagging Cantilevered Roof—N. S. Khapilova 322 93
Limiting Load on a Nonuniform Half-Space Weakened by a Circular Cylindrical or Spherical Working—O. D. Grigor'ev 326 96
Measuring Stresses in a Hereditary-Elastic Medium by Means of Photoelastic Sensors —G. I. Gritsko, D. P. Senuk, and G. I. Kulakov 330 100
Errors in Measurements of Mechanical Stresses by Optical Sensors—N. V. Ivanova 333 103
Use of the Seismoacoustic Method in Kuzbass Mines—V. E. Krupin and A. P. Galushko 336 106
Determination of the Uniaxial Compressive Strengths of Rocks—Yu. M. Kartashov, Yu. D. Mazur-Dzhurilovskii, and A. A. Grokhol'skii 339 108
Experimental Determination of the Cohesion Moduli of Rocks—P. V. Akimochkin and S. B. Kolokolov 342 111
Experimental Determination of the Parameters of a Shock Pulse—O. B. Slutskaya and V. D. Garmash 345 113
How the Physical Properties of Refractory Clay Affect the Resistance to Cutting —I. Ya. Shevchenko and V. I. Seroshman 348 115
Interaction of a Pneumatic Punch with the Ground—E. N. Cherednikov 352 119

BOOK REVIEW
Optimization of the Action of the Effector Units of Coal-Cutting Machines Reviewed by V. N. Khorin and A. G. Frolov 355 122

CHRONICLES
Timofei Fedorovich Gorbachev (to Celebrate His 70th Birthday) 358 125

Number 4 July-August, 1970

ROCK MECHANICS AND ROCK PRESSURE
Relations between the Stress—Deformation State of the Rock and the Conditions at the Contact with the Coal Seam—G. I. Gritsko and V. E. Mirenkov 361 3
How Tangential Stresses at the Rock—Seam Contact Surface Affect the State of Stress of Solid Rock—S. V. Kuznetsov 368 10
Solution of a Boundary-Value Problem Which Arises in Determining the State of Stress of Solid Rock—B. V. Vlasenko and L. G. Guzevskii 377 20
Mechanical Characteristics of Lower Layers of Roof Rock under Static Indentation by a Punch —S. T. Kuznetsov and Yu. G. Krotov 380 24

	Engl.	Russ.
Laboratory Investigations of Rock Pressure Manifestations during Extraction of a Thick Level Seam in the Karaganda Coalfield by KM-120 Powered Aggregates with Self-Advancing Hydraulically Operated Supports—L. N. Gapanovich, A. M. Kozina, E. P. Rutkovskaya, and I. Kh. Gogiya	384	28
Effect of Adjustable Roof Bolts on the Strength of the Support—Rock System —G. I. Kravchenko	389	34
MINE AERODYNAMICS		
Procedure for Thermal Calculations of Mine Air—A. N. Shcherban' and V. P. Chernyak	394	41
Predicting Dangerous Methane Concentrations—V. P. Lavtsevich	396	43
Methods of Accelerating Gas Emission after Extensive Blasting in Open-Cut Mines —P. V. Beresnevich and V. A. Mikhailov	400	48
Turbulent Diffusion of Exhaust Gases in a Transportation Working—V. V. Skobunov	404	54
PHYSICAL AND CHEMICAL BASES OF BENEFICIATION		
Effect of Metamict Decomposition of Orthite on Its Floatability—I. N. Plaksin, K. F. Barysheva, V. I. Solnyshkin, and V. A. Khvostova	412	63
Effectiveness of Separate Processing of Different Types of Ores of the Dzhezkazgan Deposit —N. A. Ryzhenkov, V. A. Kuchaev, A. F. Chunin, and Yu. N. Ermolin	417	69
How a Magnetic Field Affects Formation of Metal Hydroxides during Flotation—N. I. Eliseev, Z. A. Ogloblina, and V. M. Khorevich	422	75
BRIEF COMMUNICATIONS		
Method of Statistical Analysis of Texts on Mining Techniques—V. I. Kreimer	425	79
Propagation of the Discharge Wave in the Face Zone of a Coal Seam and Its Relation to Rock Bursts—S. V. Kuznetsov	429	82
Experience in Stress Determination in a Coal Seam by Photoelastic Transducers —V. I. Khotyakhov and G. I. Kulakov	434	87
Accuracy of Centrifugal Models of Earthworks—N. I. Alekseenko	437	89
Results of an Investigation of the Surface Resistances of Coals and the Country Rocks, Measured with Electrodes at Various Temperatures—A. A. Preobrazhenskii and N. F. Tarasevich	440	92
Possibility of Using Radiant-Energy Generators for Fracturing Rocks—S. A. Poluyanskii, A. A. Galyas, and L. P. Larkina	442	94
Use of Film Thermocouples for Studying Thermal Fracturing of Hard Rocks —L. S. Kuzyaev and Yu. E. Shishkin	445	96
Fracturing of Rocks by Complex Charges—N. G. Dubynin and V. M. Borovikov	447	98
Stress Waves Due to Detonation of a Cylindrical Charge at a Free Surface —G. L. Khesin, I. Kh. Kostin, and Yu. G. Smirnov	449	100
Cutting Force of a Single Blade, in Connection with Automatic Monitoring of the Coal—Rock Interface—V. A. Brenner, L. A. Krauss, P. Ya. Sova, and E. I. Shul'gin	454	105
Determining the True Rear Angle of a Rock Cutter during Drilling —N. V. Ziminov	458	109
Some Laws of Bit Wear in Auger Drilling of Vertical Boreholes—B. A. Katanov	461	112
Electrochemical-Mechanical Reshaping of the Bits of Cutting and Sinking Machines —I. A. Koganov, N. N. Shemarin, and N. N. Frolov	463	113
A Feed Unit for Drilling Machines—N. N. Esin and É. G. Chernilov	465	115
A Hydraulic Drill Rig—P. É. Mal'bert, N. S. Lavrov, and Yu. I. Alkasarov	467	117
Analysis of the Influence of Certain Factors on the Operation of a Compressor —N. M. Barannikov	469	119
Calculation of the Long Line Characteristics for Propagation of an Electromagnetic Signal along a Conductor in a Mine Working—V. V. Maslennikova and N. V. Semevskaya	473	123

Number 5 September-October, 1970

ROCK MECHANICS AND ROCK PRESSURE

Changes in the Nature of Rock Deformation when Minerals are Worked at Great Depths —G. I. Chernyi 481 3

Rock Bursts in Deep Mine Workings—A. N. Zorin 486 8

Solution of the First Problem of the Theory of Elasticity for a Half-Plane with a Notch, and Its Application to Aspects of Rock Pressure—V. S. Kuksin 491 14

An Analytical Solution for the Distribution of Compressive Forces in a Granular Medium —A. P. Batalov 496 19

Processing the Results of Research on the Scale Factor in Flexure—V. T. Gorokhov 507 32

Numerical Analysis of Two-Dimensional Gas Filtration in the Solid Coal —A. T. Gorbachev and A. V. Kazhikhov 511 37

ROCK-BREAKING

Fracture of Solid Bodies by Dynamic Loads—V. S. Nikiforovskii, S. I. Sabitova, and A. E. Strelyaev 517 44

Zone of Influence of a Rigid Punch Pressed into an Elastic Body—F. Z. Krasnovskii 525 53

State of Stress in a Bench Undercut by a Slot in Its Base—É. G. Chaikovskii, O. D. Grigor'ev, V. E. Futiran, Yu. A. Zakharov, and Yu. G. Gorbachev 528 57

Velocity of Propagation of Elastic Waves in Rock, in Relation to Natural Factors—V. D. Mitin and É. I. Timofeev 532 61

Characteristics, Structures, and Textures of Caved Rock—É. É. Gaidukov 536 65

MECHANIZATION AND AUTOMATION IN MINING

Frequency Characteristics of Pneumatic-Hydraulic Vibropercussive Mechanisms with Throttle Distributors—O. D. Alimov and S. A. Basov 540 70

Classification of Reciprocatory Electromagnetic Machinery—N. P. Ryashentsev and V. M. Sboev 545 75

Lateral Cutting Force as a Factor Which Excites or Damps Transverse Spontaneous Vibrations in Rotor Excavators—V. Yu. Chudnovskii 553 85

Mechanism of Hydroabrasive Wear of Pipelines—V. V. Moskvitin 558 91

Assessing Hand-Held Percussive Machines—A. M. Petreev 562 96

BRIEF COMMUNICATIONS

Problems Involved in the Development of New Horizons of Pits, Involving the Opening Up of Burst-Prone Seams—D. T. Gorbachev, E. S. Rozantsev, and V. F. Karmanov 568 103

Action of Laser Radiation on Rocks—G. I. Barenblatt, N. S. Krasilova, N. P. Novikov, and E. M. Sergeev 572 106

Calculating Total Displacements Due to Underworking and Overworking—V. E. Mirenkov 575 109

Logical Model of the Process of Construction of an Isoline Map by an Interpreter —N. A. Klemberg, D. P. Senuk, and M. I. Shemyakin 579 112

On the Viscosity of Rocks—N. F. Renzhiglov and T. V. Pavlishcheva 582 115

Rock Creep at High Temperatures—Yu. F. Kuznetsov and V. A. Vashchilin 586 118

Determination of the Initial Stresses in Mine Working Supports by the Relief Method —E. G. Zavriyan 589 120

An Electromechanical Hammer with Parallel Arrangement of Motor and Percussion Assembly and a Specially Profiled Cam Gear—Yu. A. Afanas'ev, V. A. Kargin, É. A. Shmidt, and A. M. Yarunov 591 121

Design Calculation for a Screw Loader—Yu. K. Pod"emshchikov 594 123

Averaging the Qualitative Composition of Ore in Dressing Plant Bunkers—A. D. Shkol'nikov and E. I. Azbel' 597 125

Gage for Measuring Blasting Stresses—V. M. Borovikov 601 128

Number 6 November-December, 1970

ROCK MECHANICS AND ROCK PRESSURE

Geotechnical Parameters of Strengthening of Broken Rock around a Working—G. G. Litvinskii and E. B. Druzhko 605 3

Laws of Variation of Tensile Strength Indices and Deformation Properties of Rocks with Rate and Duration of Loading—M. P. Mokhnachev and N. V. Gromova 609 8

Long-Term Strength of Nonuniform Pillars—F. P. Bublik and G. A. Ivanov 613 12

Characteristics of Seismoacoustic Processes Due to Rock Fracture in Dzhezkazgan Pits —A. G. Konstantinova and P. I. Ovsyannikov 621 22

Calculating Displacements in an Underworked Rock Mass—A. G. Shadrin and V. E. Mirenkov 624 26

Fracture of the Synclinal Rock Core at the Dzerzhinskii Mine—R. A. Kadyrbaev 630 32

OPEN-CUT MINING

Optimization of the Technological Communications between Open Pits and Dressing Plants with Ore Blending—M. G. Novozhilov, A. M. Épert, Ya. Sh. Roizen, and L. V. Shamrovskaya 632 34

A Method of Calculating the Width of the Caved Rubble in the Transportless System of Working a Series of Sloping Beds—M. M. Bereznyak, A. V. Kalinin, and V. G. Pronoza 638 41

UNDERGROUND MINING

Development of Interhorizon Isolation Zones in Thick Steep Seams—V. F. Krylov and L. P. Tomashevskii 644 48

A Model of the Factors Affecting Output Per Man-Shift in a Pit, Based on Nonlinear Multiple Correlation—A. G. Surkov, Yu. V. Cherednichenko, V. I. Kravchenko, and É. S. Kotlov 650 54

A Model, Based on Markov Processes, for Optimizing Reserve Capacity Provision in the Production Plan of a Pit—N. V. Astashkin 654 59

The Possibility of Assessing the Burst Hazard in Mine Seams—A. E. Ol'khovichenko and V. P. Chuberkis 660 66

MINE AERODYNAMICS

Transport of Admixtures by a Turbulent Current along a Mine Working with Nonsteady Gas Exchange between the Current and the Walls of the Working—S. P. Grekov and A. E. Kalyusskii 668 74

Factors Affecting the Flow and Length of the Initial Turbulence Section in a Ventilation Fan Duct with a Diameter of 500 mm—N. A. Bogomolov 673 78

Methods of Improving the Efficiency of Main Mine Ventilation Plants—N. N. Petrov and P. T. Ponomarev 679 85

BRIEF COMMUNICATIONS

Procedure and Technique for Studying Rock Pressure Phenomena during Extraction of Steep Seams with Hydraulic Supports—D. T. Gorbachev and A. N. Oreshkin 683 91

How Prewetting of Coal Seams Affects the Engineering Properties of Coal—M. A. Menkovskii, V. P. Zhuravlev, and V. P. Volkova 687 95

Determination of the Position of the Slip Surface and the Thickness of the Prism of Possible Caving in a Homogeneous Sloping Bank—Yu. S. Kozlov and V. N. Zemisev 689 97

Selecting Effective Pressures for Breaking Donbass Coals by Hydromonitor Jets —A. A. Timme 692 100

How High Pressures Affect the Deformation Properties of Sedimentary Rocks —T. B. Malachikhanov, G. A. Mataev, and A. U. Maniev 697 105

Practice and Theory of Improving Coal Output by the Use of a Storage Bunker in the Transportation Line—L. M. Alotin and V. L. Belgorodskii 700 108

The Loads in the Cutting Drive Transmission Elements of Cutter-Loaders—V. A. Brenner, P. P. Palev, V. K. Kostetskii, and A. G. Safronov 703 111
Amplitude and Frequency of Pressure Variations in a One-Stage Air Lift—V. V. Khubaev 707 114
A Resonance Hydropercussive Pulsation-Press Drilling Machine—V. B. Pototskii 712 118
Improving the Efficiency of Dust Wetting in a Venturi Tube and Reducing the Pressure Losses—I. Ch. Chulakov and U. B. Baitasov 715 121
How the Thermophysical Properties of Rocks Affect the Air Temperature in Underground Workings—Yu. I. Belotserkovets 718 123
Oxidative Deactivation of Coal—A Promising Trend in the Suppression of Spontaneous Mine Fires—S. I. Alekseev 721 126

CHRONICLES 724 129
